<https://www.youtube.com/watch?v=OUYgteWv84U>

- Kindergarten Kranj is a public institution, which is intended for pre-school children from 1 year up to school age.
- The biggest kindergarden in Slovenija
- 15 different locations
- Aprox. 1600 children/year
- 300 employees

ACTIVITIES IN KINDERGARDEN (CURRICULUM)

- Work and life in the kindergarten is organized by considering the child's individual differences and opportunities, we offer them choice and diversity.
- Good and affordable child well-being in kindergarten, his own activity and creativity, friendly and professional staff and openness of kindergarten to family are our primary consideration.
- Areas of activity in kindergarten: movement, language, art, society, nature, mathematics. Resting, feeding and the other daily activities as a component of the curriculum.

Erasmus+

Me and you – with the language we set off on our way!

- The need of upgrading knowledge in the field of language was recognized.
- We will enhance the collaboration and communication among the employees, strengthen their professional and personal growth, improve formative monitoring of children in their development and progress, identify children with speech and language difficulties as soon as possible, and consequently enhance therapeutic effects, introduce new working methods in the field of learning methods and language, disseminate the acquired experiences and skills both outside and inside the institution, improve the flow of information, enhance the communication among all participants (employees, children, parents, local community, professional public) and motivate the co-workers to actively participate in international mobility activities.
- Staff members working in different fields in the institution (preschool teachers, managing staff, counsellors, speech-therapist)
- 9 different KA1 courses (for 12 staff members)
